Suggested citations for the SPM, chapters and full report

- Suggested citations

Full report

- Full report
- Full report in Linked Open Data

Summary for policymakers

- SPM
- Translations of the SPM in German and Japanese , and available for downloading in plain text in Arabic, Chinese, French, Russian and Spanish

- The schematic and adapted figures of the SPM
- Data management report for figure SPM.2

Factsheets

- Factsheet - Messages from the summary for policymakers

Chapter 1. Setting the scene

- Chapter 1 and supplementary material
- Schematic and adapted figures

Chapter 2. Conceptualizing the sustainable use of wild species

- Chapter 2
- Schematic and adapted figures
- Data management report for the systematic review on Indigenous and local conceptualizations and customary rules and regulations of the sustainable use of wild species
- Data management report for the analysis of global and local indicators of sustainable use of wild species
- Data management report for the systematic review on the academic conceptualizations of the sustainable use of wild species
- Data management report for the conceptualization of key elements of sustainable use in global and regional standards, agreements and certification schemes, and their uptake in policies

Chapter 3. Status of and trends in the use of wild species and its implications for wild species, the environment and people

- Chapter 3 and supplementary material
- Schematic and adapted figures
- Data management report for the systematic literature review for assessing status and trends of the use of wild species
- Data management report for Figure 3.17 and its output management plan
- Data management report for Figure 3.18 and its output management plan
- Data management report for Figure 3.21
- Data management report for Figure 3.22 and its output management plan
- Data management report for Figure 3.25
- Data management report for Figure 3.44
- Data management report for Figures 3.54 and 3.55

- Data management report for Figure 3.58 and its output management plan
- Data management report for Figures 3.56, 3.59, 3.60, 3.61 and 3.62
- Data management report for the systematic literature review for the gathering of fungi

Chapter 4. The drivers of the sustainable use of wild species

- Chapter 4 and supplementary material
- Schematic and adapted figures
- Data management report for the systematic review on the drivers of the sustainable use of wild species
- Data management report for the figures 4.18
- Data management report for the figures 4.19

Chapter 5. Future scenarios of sustainable use of wild species

- Chapter 5
- Schematic and adapted figures
- Data management report for the systematic review of literature on scenarios of sustainable use of wild species

Chapter 6. Policy options for governing sustainable use of wild species

- Chapter 6
- Schematic and adapted figures
- Data management report for the systematic review on policy effectiveness for the sustainable use of wild species
- Data management report for the figure 6.6
- Data management report for the figure 6.7

Glossary

- SUA glossary

ILK Dialogue Workshop Reports

- First Indigenous and local knowledge dialogue workshop for the IPBES assessment on the sustainable use of wild species
- Report from the second ILK dialogue workshop for the IPBES assessment of the sustainable use of wild species

- Report of the Indigenous and local knowledge dialogue workshop for the draft summary for policymakers and second order draft of the IPBES sustainable use assessment

Underlying bibliographic data and research materials
